No. 5

## WHY WEAR A SEATBELT ?

- THEY JUST GET IN THE WAY
- THEY ARE A LOT OF TROUBLE TO PUT ON & TAKE OFF .
- THEY REALLY DON'T ADD TO MY SAFETY ON THE JOB.
- IT'S NOT LIKE I'M IN MY OWN CAR ON THE FREEWAY.
- ***THINK AGAIN!!!!***

# WHY WEAR A SEATBELT ?

Statistics show that in cases where a forklift has tipped over, those workers who have worn a seatbelt have escaped serious injury and/or death. So, guess what the statistics say about those drivers who were not using their seatbelts

Whether you're driving a forklift, UTR, yard truck or any other piece of equipment in the yard. If it has a seatbelt ...

**USE IT !**

So why wear a seatbelt ?  
It's just common sense. A seatbelt is proven protection against injury.  
Use your head...use your seatbelt !!!
