

Longshore Safety Tip

No. September 2004

Auto Vessel Safety Awareness

Working an Auto Vessel can pose a different set of hazards to Longshore workers.

It is important to remember the following safety rules..

Watch out for:

- 1. Pedestrians*
- 2. Low Overheads*
- 3. Vehicle Traffic*
- 4. Tripping Hazards*
- 5. Wet/Slippery Decks & Ramps*

Use the designated walkways

TOYOTA

ATTENTION ALL DRIVERS

Do you know the correct sequence to move cars out of stow on the ship?

Always remember to:

- ▶ Turn steering wheel slightly to the left as you move vehicle forward
- ▶ Do not back up unless assisted
- ▶ Be extra careful when moving car near stanchions or other cars
- ▶ Drive safely and carefully at all times
- ▶ Always move cars in proper order

*Obey all Posted
Speed Limits,
Driving &
Traffic
