

Safety and Health Advancement Act (S. 765)

The attached Bill and summary recommends changes to the OSHA Act of 1970 that have been supported by the Industry, e.g., third party safety audits, employee responsibilities, and drug and alcohol testing. Members are encouraged to support this Bill by writing to their representatives in Washington.

The PMA and the National Maritime Safety Association (NMSA) will also coordinate responses. Members are requested to submit comments to Area Accident Prevention Supervisors to assist in preparing a PMA response.
